Michigan SOS

Permit Practice Test 2026

177 questions with answers & explanations · permitpractice.us

Michigan permit test: quick facts

Questions on the real test	Not published by the SOS
Test format	The test has two portions that must both be passed: an "Operator" section on traffic laws (about 45 minutes) and a "Signs" section (about 15 minutes).
Passing score	Not published by the SOS (our practice tests use 70%)
Wrong answers allowed	Depends on test length (not published)
Minimum age	14 years 9 months
Testing agency	Secretary of State (SOS)
Official permit name	Level 1 Learner's License (teens under 18, Graduated Driver Licensing); adults 18+ receive a Temporary Instruction Permit (TIP)
Permit fee	$25 (Level 1 license or TIP); online adult knowledge test adds a $6.50 convenience fee
If you fail	SOS knowledge test (adults): failing terminates the test and you must reschedule for a different day. Teen Segment 1 exam retakes are handled by the driver-ed provider. No published attempts limit.
Online testing	Partially - online testing is available only in some cases (see the official site).
Driver's education	Required for applicants under 18.
Supervised practice	50 hours incl. 10 at night (Level 1 teens)
Permit holding period	6 months on Level 1 before the road skills test (teens); adults must hold the TIP at least 30 days
Under-21 alcohol limit	Zero tolerance (any measurable amount)

How to use this PDF

1. Answer every question on paper first, then check the answer key at the back - each answer has a short explanation of the rule.

2. Aim for 80% or better two or three times in a row before you book your SOS appointment.

3. Take the free interactive versions at https://permitpractice.us/michigan/ - they shuffle the questions, track what you miss and include the road-sign picture questions this PDF cannot show.

4. Read the official Michigan driver's handbook alongside these questions: https://www.michigan.gov/sos/-/media/Project/Websites/sos/Resources/Forms-and-publications/WEDMK/WEDMK.pdf

Questions are original study questions written from the Michigan driver's handbook and general traffic law. They are not copies of actual SOS exam questions. State facts last reviewed 2026-09-28. Free for personal study; do not resell. © 2026 permitpractice.us

Michigan Permit Practice Questions

Circle your answer. Answer key with explanations starts on the last pages.

1. Since 2023, Michigan's hands-free law says a driver may not:

A) Hold or support a phone with hands, arms, or shoulders
B) Talk through a Bluetooth headset or car system
C) Listen to music or podcasts through the speakers
D) Keep a phone in a dashboard phone mount

2. Under Michigan's Zero Tolerance law, a driver under 21 violates the law with:

A) A BAC of 0.10 or greater only
B) Any bodily alcohol content
C) A BAC of 0.08 or greater only
D) A BAC of 0.05 or greater only

3. Under Michigan's Kelsey's Law, a teen with a Level 1 license may use a cell phone while driving:

A) At any time, like adults
B) Only in an emergency
C) For navigation only
D) For hands-free calls

4. A Michigan Level 1 license holder may drive only when accompanied by:

A) A licensed parent, guardian, or designated adult 21+
B) A friend of any age who has a valid license
C) No one - Level 1 drivers may drive alone
D) Any licensed driver who is at least 18 years old

5. Under a 2016 law, Michigan raised the maximum speed limit on qualifying rural freeways to:

A) 65 mph
B) 85 mph
C) 80 mph
D) 75 mph

6. Unless signs show a different limit, what is the speed limit in a Michigan platted subdivision?

A) 15 mph
B) 25 mph
C) 30 mph
D) 35 mph

7. On a Michigan freeway with no other limit posted, what are the maximum and minimum speeds?

A) 70 mph max, 40 mph min
B) 75 mph max, 50 mph min
C) 70 mph max, 55 mph min
D) 65 mph max, 45 mph min

8. In Michigan, what is the speed limit on a highway that is not a freeway when no other limit is posted?

A) 55 mph
B) 50 mph
C) 65 mph
D) 45 mph

9. How are fines for moving violations handled in Michigan work zones?

A) They are cut in half for a first offense
B) They are tripled when workers are present
C) They are the same as anywhere else
D) They are doubled

10. You see a state road maintenance truck with flashing green lights. What should you do?

A) Pass it quickly before work begins
B) Stop until the truck leaves the road
C) Pull onto the shoulder and wait
D) Slow down and drive with caution

11. When passing a stopped emergency vehicle with flashing lights, Michigan law requires you to slow to at least how far below the posted limit?

A) 5 mph
B) 20 mph
C) 15 mph
D) 10 mph

12. In Michigan, how far back should you stay when following a moving emergency vehicle that has its lights flashing and siren on?

A) At least 100 feet
B) At least 200 feet
C) At least 500 feet
D) At least 300 feet

13. A school bus ahead has its red overhead lights flashing. In Michigan, how far from the bus must you stop?

A) At least 20 feet
B) At least 50 feet
C) At least 10 feet
D) At least 5 feet

14. A school bus with flashing red lights is stopped on the far side of a highway split by a grass median. You are going the other way. What does Michigan law require?

A) Stop at least 20 feet from the bus
B) Slow to 15 mph while you go past
C) Stop until the red lights turn off
D) You may continue with care

15. A funeral procession with orange flags is passing through an intersection in Michigan. What does the law say?

A) You may join the line to get through
B) You must pull over and stop
C) Only police vehicles must yield to it
D) You may not cut through the procession

16. At a red light in Michigan, with no sign forbidding it, may you turn left from a two-way street onto a one-way street?

A) Yes, after a full stop and yielding
B) No, only one-way onto one-way
C) Only when a police officer waves you on
D) No, left on red is never allowed

17. When passing on a two-lane Michigan road, you must be back in your own lane before you come within how many feet of an oncoming vehicle?

A) 200 feet
B) 500 feet
C) 100 feet
D) 300 feet

18. In Michigan, passing is not allowed within how many feet of an intersection or railroad crossing?

A) 100 feet
B) 50 feet
C) 200 feet
D) 500 feet

19. You reach an intersection that uses a Michigan Left. How do you make your left turn?

A) Use the right shoulder, then cross all lanes
B) Turn left directly after yielding to oncoming cars
C) Go past or turn right, then U-turn at a crossover
D) Turn left from the center lane on a green arrow

20. A Michigan Left median crossover has no lane markings. How should you treat it?

A) As room for two cars side by side
B) As a single-lane crossover
C) As a place to pass slower cars
D) As a lane for trucks and RVs only

21. In Michigan, you may not park within how many feet of a fire or a crash scene?

A) 1,000 feet
B) 200 feet
C) 100 feet
D) 500 feet

22. In Michigan, you may not park within how many feet of the nearest rail of a railroad crossing?

A) 100 feet
B) 30 feet
C) 50 feet
D) 15 feet

23. In Michigan, you may not park within how many feet of a stop sign or traffic light?

A) 20 feet
B) 30 feet
C) 15 feet
D) 50 feet

24. An intersection has no marked crosswalk. In Michigan, how close to the intersection may you park?

A) No closer than 10 feet
B) No closer than 50 feet
C) No closer than 30 feet
D) No closer than 15 feet

25. A train is coming toward a Michigan railroad crossing. Where must you stop your vehicle?

A) 10 to 30 feet from the tracks
B) 15 to 50 feet from the tracks
C) 5 to 25 feet from the tracks
D) 50 to 100 feet from the tracks

26. Traffic is backed up near a railroad crossing. Before crossing, you need room to clear the far side of the tracks by at least:

A) 10 feet
B) 6 feet
C) 15 feet
D) 2 feet

27. Under normal conditions, what following distance does the Michigan manual call for?

A) 8 to 10 seconds
B) 2 seconds
C) 3 to 4 seconds
D) 1 to 2 seconds

28. Michigan law forbids using or flashing your high beams within how many feet of an oncoming vehicle?

A) 300 feet
B) 500 feet
C) 1,000 feet
D) 200 feet

29. When it starts to rain, the Michigan manual says to slow down and leave at least how much following distance?

A) The same as on a dry road
B) Half the normal distance
C) Twice the normal distance
D) One extra car length

30. Michigan law requires you to leave at least how much space when passing a bicyclist?

A) 3 feet
B) 6 feet
C) 1 foot
D) 2 feet

31. You are following a horse-drawn buggy on a Michigan road. What gap should you keep behind it?

A) At least 10 feet
B) At least 100 feet
C) At least 20 feet
D) At least 5 feet

32. A crash with a deer cannot be avoided. What does the Michigan manual tell you to do?

A) Brake firmly and stay in your lane
B) Speed up to get past it quickly
C) Flash your high beams and honk
D) Swerve hard to steer around it

33. Unless an exception applies, a Michigan Level 2 Intermediate License holder may not drive between:

A) Midnight and 5 a.m.
B) 10 p.m. and 5 a.m.
C) 9 p.m. and 6 a.m.
D) 11 p.m. and 6 a.m.

34. What is the fine for a first offense of using a hand-held phone while driving in Michigan?

A) $500
B) $50
C) $250
D) $100

35. Michigan requires a car seat or booster seat until a child is 8 years old or reaches what height?

A) 4 feet 5 inches
B) 5 feet 0 inches
C) 4 feet 2 inches
D) 4 feet 9 inches

36. What is the minimum age to apply for a learner's permit in Michigan?

A) 14 years old
B) 16 years old
C) 14 years 9 months years old
D) 15 years old

37. What does a red traffic light mean?

A) Stop, then go straight if the way is clear
B) Prepare to stop - the light will change soon
C) Stop completely before the intersection
D) Slow down and yield to cross traffic

38. What does a yellow traffic light mean?

A) Proceed normally
B) Stop at once, no matter how close you are
C) The light is about to turn green
D) Stop if it is safe to do so

39. Who must yield when a pedestrian is crossing at a marked crosswalk?

A) The pedestrian, since cars cannot stop quickly
B) The driver must yield to the pedestrian
C) The driver, but only at a traffic signal
D) Whoever reached the crosswalk first

40. What shape is a stop sign?

A) Pentagon (5-sided)
B) Octagon (8-sided)
C) Hexagon (6-sided)
D) Triangle (3-sided)

41. How do most state handbooks tell you to measure a safe following distance?

A) Count the seconds between it and you passing a fixed point
B) Count car lengths - one car length is enough at any speed
C) Stay close enough to read the license plate of the car ahead
D) Follow at a distance in feet equal to your speed in mph

42. What color are warning signs?

A) Yellow or orange
B) Blue or green
C) White with black letters
D) Red

43. What does the 'basic speed law' require?

A) Never drive more than 10 mph below the posted limit
B) You may always drive at the posted limit, whatever the conditions
C) Drive no faster than is safe for current conditions
D) Keep up with the flow of traffic, even above the limit

44. For adult drivers (21+), what Blood Alcohol Concentration (BAC) is the legal limit in most states?
A) 0.05%
B) 0.02%
C) 0.08%
D) 0.04%

45. At a 4-way stop sign, two cars arrive at exactly the same time. Who goes first?
A) The car going straight
B) The car on the left
C) The car that signals first
D) The car on the right

46. When are you required to use headlights?
A) Only at night on roads without streetlights
B) At night and when visibility is reduced
C) Only on highways at night, not on city streets
D) Only when it is fully dark, not in bad weather

47. What does a triangular sign with a red border mean?
A) No entry
B) Yield the right of way
C) Stop for all cross traffic
D) Merging traffic ahead

48. In many areas a curb is painted yellow. What should you understand from this?
A) It is reserved for motorcycles
B) You may park there for as long as you like
C) Stopping or parking is restricted there
D) It shows a spot reserved for disabled drivers

49. What must you do when you see or hear an emergency vehicle with lights and/or siren on?
A) Pull to the left lane and slow down
B) Pull to the right edge and stop
C) Stop immediately where you are
D) Slow down but stay in your lane

50. A diamond-shaped orange sign indicates:
A) A work zone ahead
B) A slow-moving vehicle ahead
C) A yield ahead
D) A school zone

51. When driving in heavy rain, you should:
A) Use cruise control to keep a steady, safe speed
B) Use low beams and leave more following distance
C) Turn on hazard lights and drive at normal speed
D) Use high-beam headlights to see better

52. Where should you stop your vehicle at a red light when there is a stop line?
A) Just before the stop line
B) On the stop line
C) Just past the stop line
D) Where you can see cross traffic

53. What is the safest way to check your blind spot before changing lanes?
A) Check your rearview mirror, then signal and go
B) Check both side mirrors only
C) Trust your car's blind-spot warning light
D) Glance over your shoulder toward the new lane

54. In most states, how far before a turn must you begin signaling on a city street?
A) At least 500 feet
B) At least 20 feet
C) At least 10 feet
D) At least 100 feet

55. When parking uphill with a curb, which direction do you turn your front wheels?
A) Straight ahead, parallel to the curb
B) Either way, if the parking brake is set
C) Toward the curb (right)
D) Away from the curb (left)

56. Green traffic signs provide:
A) Guide information (directions)
B) Warning information (hazards)
C) Service information (gas, food)
D) Regulatory information (laws)

57. When turning left at a green light (not a green arrow), you must:
A) Turn first - oncoming traffic must yield to you
B) Wait for oncoming traffic to stop
C) Yield to oncoming traffic and pedestrians
D) Turn immediately - green means go

58. What does a flashing red light mean?
A) Stop, then go when it is safe
B) Stop and wait for the light to turn green
C) Yield, but stop only if cars are coming
D) Slow down and proceed with caution

59. If your vehicle's accelerator sticks while driving, you should:
A) Shift to neutral, brake, and steer to safety
B) Keep driving and call for help on your phone
C) Switch off the engine and remove the key
D) Shift into park and pull the parking brake

60. Double solid yellow center lines mean:
A) No passing from either direction
B) Passing is allowed if the road ahead is clear
C) A center lane for left turns only
D) Passing is allowed from both directions

61. Alcohol affects driving by:
A) Mainly causing drowsiness, which coffee can fix
B) Slowing reactions only once you reach 0.08%
C) Affecting judgment, but not reaction time
D) Impairing reaction time, judgment, and vision

62. What does a railroad advance warning sign look like?

A) A round yellow sign with an X and RR
B) A white X-shaped sign reading RAILROAD CROSSING
C) A red and white triangle reading RR
D) A yellow pentagon showing a train

63. If you begin to skid on ice or a slippery surface, you should:

A) Turn the wheel sharply in the opposite direction
B) Brake firmly and hold the wheel straight
C) Shift to neutral and pull the parking brake
D) Ease off the gas and steer where you want to go

64. In most states, you must not park within how many feet of a fire hydrant?

A) 30 feet
B) 5 feet
C) 15 feet
D) 10 feet

65. What is the purpose of a broken white line between lanes?

A) Lanes are one-way only
B) You may not change lanes or pass here
C) Lane changes are permitted when safe
D) Traffic moves in opposite directions

66. When should you use your windshield wipers?

A) Whenever rain, snow or spray blurs your view
B) Only when the car's rain sensor turns them on
C) Only once rain is heavy, to save the blades
D) Only in rain, not for snow or road spray

67. When entering a highway from an on-ramp, who has the right of way?

A) The larger vehicle, such as a truck
B) The merging vehicle
C) Whoever reaches the merge point first
D) Traffic already on the highway

68. What does a blue traffic sign indicate?

A) Recreation areas such as state parks
B) Motorist services like gas and food
C) Rules you must obey, such as limits
D) Highway route information

69. What should you do if your vehicle begins to hydroplane (ride on a film of water)?

A) Speed up gently so the tires cut through
B) Steer quickly toward the dry edge of the road
C) Ease off the gas and keep the wheel straight
D) Brake firmly until the tires grip again

70. In most states, you may not park within how many feet of a crosswalk at an intersection?

A) 5 feet
B) 50 feet
C) 20 feet
D) 10 feet

71. What does the Move Over Law require?

A) Keep your lane and speed, but use flashers
B) Stop your vehicle when you see emergency lights
C) Move over a lane, or slow down if you cannot
D) Move over only if a police car is stopped

72. On an undivided two-lane road, a school bus stops with its red lights flashing and stop arm out. What must drivers do?

A) Stop, then pass slowly if no children are seen
B) Slow down and pass on the left with caution
C) Stop in both directions until the lights stop
D) Wait until children reach the curb, then pass

73. A vehicle entering a roundabout (traffic circle) must:

A) Yield only to traffic coming from the right
B) Stop completely before entering, even if clear
C) Proceed immediately since they have right of way
D) Yield to traffic already in the roundabout

74. What is the purpose of an anti-lock braking system (ABS)?

A) To let you pump the brakes faster in a skid
B) To brake for you when a car ahead stops
C) To keep wheels from locking so you can steer
D) To stop your vehicle faster by automatically pumping brakes

75. A pentagon (5-sided) shaped sign is associated with:

A) Hospital zones
B) Construction areas
C) No-passing zones
D) School zones

76. Which of the following is NOT a legal reason to use your horn?

A) To warn a driver drifting into your lane
B) To warn others on a blind mountain curve
C) To alert a child about to run into the road
D) To express frustration at another driver

77. What does 'implied consent' mean for drivers?

A) You may refuse testing with no penalty
B) You let police search your car at any stop
C) You agree to chemical tests if arrested for DUI
D) You agree to obey all traffic laws when you drive

78. In states that use colored curbs, what does a red curb generally mean?

A) Passenger loading only
B) No stopping, standing, or parking
C) Loading for commercial trucks only
D) Parking allowed if you stay with the car

79. When should you check your tire pressure?

A) Once a year at your oil change or state inspection
B) After driving a while, when tires are warm
C) Monthly and before long trips, with cold tires
D) Only when the warning light comes on

80. What is the most effective way to stay alert on a long drive?

A) Drink coffee or an energy drink each hour
B) Take breaks every 2 hours or 100 miles
C) Keep the window open and the air cold
D) Turn up the radio and sing along

81. You are driving at 60 mph on a highway. How many feet does your vehicle travel per second?

A) 100 feet
B) 88 feet
C) 44 feet
D) 66 feet

82. What is the danger zone around a large truck where the truck driver cannot see you?

A) Large trucks have no blind spots with modern mirrors
B) In front, behind, and along both sides
C) Only beside the cab on the driver's side
D) Only behind the trailer and on its right

83. When two lanes merge and there are 'zipper merge' signs, you should:

A) Use both lanes to the merge point, then take turns
B) Merge early - as soon as you see the sign - to be polite
C) Let all vehicles in the other lane go first
D) Stop and wait for all traffic to clear

84. A yellow pennant-shaped sign (a long triangle pointing sideways) posted on the left side of the road means:

A) No passing zone begins
B) Divided highway ahead
C) Passing lane ahead
D) Road narrows ahead

85. Using a handheld cell phone while driving is:

A) Legal for every driver in every state
B) No riskier than talking to a passenger
C) Safe as long as you keep your eyes on the road
D) Banned in most states and a major crash risk

86. Which of these will sober up a person who has been drinking?

A) Eating a big meal
B) Taking a cold shower
C) Drinking strong coffee
D) Only time

87. At an uncontrolled T-intersection, vehicles on the through road have right of way over:

A) Pedestrians in a marked crosswalk
B) Vehicles on the terminating road
C) Emergency vehicles using sirens
D) Vehicles already in the intersection

88. If your headlights go out at night while driving, you should:

A) Pull over immediately and turn on hazard lights
B) Switch to parking lights and continue slowly
C) Stop right in your lane and wait for help
D) Keep driving slowly and follow the car ahead closely

89. What is the 'point of no return' when approaching a yellow light?

A) The stop line - once past it you must proceed
B) The moment the light changes from green to yellow
C) The point where you can no longer stop safely
D) Exactly 100 feet before the intersection

90. When should you use your vehicle's emergency hazard lights?

A) When you plan to change lanes or make a turn
B) To thank a driver who let you merge
C) When your car is disabled on or near the road
D) When parking briefly in a no-parking zone

91. When you parallel park next to a curb, where should your car end up?

A) Parallel to the curb and as close as practical
B) With front wheels turned in toward the curb
C) About three feet from the curb so passengers can get out
D) Angled with the back wheel touching the curb

92. If your right wheels drift off the pavement onto the shoulder, you should:

A) Ease off the gas and steer back gently
B) Jerk the wheel left to get back at once
C) Speed up and steer back on right away
D) Brake hard and steer back onto the road

93. If a tire blows out while you are driving, the first thing you should do is:

A) Steer hard toward the shoulder right away
B) Brake hard to stop as quickly as you can
C) Turn on hazard lights and stop in the lane
D) Hold the wheel firmly and ease off the gas

94. What is the safest action when you are being tailgated?

A) Ignore them and maintain your exact speed
B) Tap your brakes hard to warn them off
C) Speed up well past the limit to pull away from them
D) Move over or add space ahead and let them pass

95. When should you use your high-beam headlights?

A) In fog for maximum light
B) When following another car at night
C) On open roads with no vehicles close by
D) Whenever it is dark, regardless of other traffic

96. Which lane position helps other drivers see you and gives you the best view of the road ahead?

A) Stay close behind a larger vehicle to block the wind
B) Ride beside other cars so they always see you
C) Keep space around you and stay out of blind spots
D) Keep to the far left edge of your lane

97. How do prescription and over-the-counter medications affect driving?

A) Legal medicines are always safe to drive on
B) Only if you take more than the dose listed
C) Many cause drowsiness - check the label first
D) Only prescription drugs can impair driving

98. When may a driver enter or cross a bike lane?

A) To turn or cross to parking, yielding to cyclists
B) To wait in it while the car ahead of you turns
C) Never, under any circumstances
D) To pass slower cars when traffic is heavy

99. What does 'covering the brake' mean?

A) Pressing the brake and gas at the same time
B) Pumping the brake to warn the drivers behind you
C) Resting your left foot on the brake pedal
D) Holding your foot over the brake, ready to stop

100. If your vehicle's engine catches fire, you should:

A) Open the hood to reach the fire quickly
B) Stop, shut off the engine, and get everyone away
C) Drive on to the nearest fire station
D) Stay in the car with the windows up until help comes

101. Total stopping distance is made up of:

A) Perception, reaction, and braking distance
B) Braking distance plus one car length
C) Reaction distance and braking distance only
D) Perception distance and braking distance

102. When driving at night, you should:

A) Look straight at oncoming headlights to judge them
B) Keep your daytime speed and following distance
C) Slow down and leave more following distance
D) Use parking lights so you do not dazzle others

103. When you reach an intersection with a flashing red light in your direction and a flashing yellow in the cross direction, you must:

A) Stop, then go first - cross traffic must yield
B) Stop, then go when safe - cross traffic won't stop
C) Slow down and go - the cross traffic has to stop
D) Stop and wait until your light turns solid green

104. A solid white line between lanes of traffic going the same direction means:

A) The road is one-way
B) Lane changes are allowed when safe
C) Lane changes are discouraged
D) Traffic moves in opposite directions

105. Worn or bald tires are dangerous primarily because they:

A) Cause the car to pull hard to one side
B) Wear out the brakes faster than normal
C) Only matter on snow and ice, not on wet pavement
D) Reduce traction and raise the risk of skidding

106. Aggressive driving behaviors such as tailgating, weaving, and excessive speeding:

A) Are only illegal when they cause a crash
B) Are safe for skilled drivers in light traffic
C) Raise crash risk and can lead to reckless charges
D) Save enough time to make up for the added risk

107. At a roundabout, in which direction does traffic flow and who has priority?

A) Counterclockwise; circulating traffic has priority
B) Counterclockwise; the larger vehicle has priority
C) Counterclockwise; entering traffic has priority
D) Clockwise; traffic in the circle has priority

108. What should you do before opening your car door after parking on a street?

A) Open it fully so passing drivers will steer around
B) Check mirrors and look for traffic and cyclists
C) Open it slowly so others can see it move
D) Check only the side mirror, then open

109. Hydroplaning is most likely to occur when:

A) Braking gently on an icy road in the cold
B) Driving slowly through deep, soft snow on a hill
C) Driving on dry pavement on a very hot day
D) Driving fast on a wet road, mainly with worn tires

110. When approaching a stopped vehicle displaying a blue and red flashing light on the roadside, the safest and often legally required action is to:

A) Speed up to pass the scene as fast as possible
B) Change lanes away if safe, or else slow down
C) Keep your speed and stay in your lane
D) Stop in your lane until the vehicle leaves

111. The single most effective way to avoid an alcohol-related crash is to:

A) Not drive at all after drinking any alcohol
B) Drink coffee and wait 30 minutes before driving
C) Stay under 0.08% by counting your drinks
D) Drive slowly and stay in the right lane

112. A center lane has a solid yellow line and a broken yellow line on each side, plus two-way turn arrows. Who may use it?

A) Drivers from either direction about to turn left
B) Drivers waiting to merge into the right lane
C) Drivers who need to pass a slow vehicle ahead
D) Only buses and cars carrying two or more people

113. Traffic ahead of you is moving slowly. May you use the shared center left-turn lane to drive around it?

A) No - the lane is only for vehicles turning left
B) Yes, if no oncoming vehicle is using it
C) Yes, as long as you signal left first
D) Yes, but only for a distance of one block

114. Your brake lights are not working. Which hand signal tells drivers behind you that you are slowing or stopping?

A) Left arm held straight out
B) Right arm waved out the window
C) Left arm out and bent downward
D) Left arm out and bent upward

115. A school bus ahead of you turns on its flashing amber (yellow) lights. What does this tell you?

A) The bus is turning, so pass it with care
B) Children are crossing - stop right now
C) The bus is pulling over with a breakdown
D) The bus is about to stop - get ready to stop

116. You are behind a school bus on a four-lane highway with a raised median. The bus stops with red lights flashing and its stop arm out. What must you do?

A) Stop only if you see children outside
B) Pass slowly in the left lane
C) Keep going because the road is divided
D) Stop - traffic behind the bus must stop

117. A front tire blows out while you are driving on the highway. When should you start using the brakes?

A) After the car has slowed and is under control
B) As soon as the car starts to pull to one side
C) Right away, pressing the pedal as hard as you can
D) Immediately, using quick hard pumps of the pedal

118. Your brake pedal suddenly sinks to the floor. Which action may build up brake pressure again?

A) Turning the engine off at once
B) Pumping the brake pedal quickly
C) Shifting the car into neutral
D) Holding the pedal on the floor

119. Your regular brakes have failed and pumping did not help. How should you use the parking (emergency) brake?

A) Only after the car has stopped
B) Apply it and release it rapidly
C) Apply it slowly and gradually
D) Pull it on as hard as you can

120. Your gas pedal is stuck and you switch off the engine to slow the car. What should you expect?

A) The car will speed up for a few seconds
B) Steering and braking will take more effort
C) The car will come to a stop almost at once
D) The brakes will stop working completely

121. A deer runs across the road ahead of you and disappears into the trees. What should you expect next?

A) More deer may follow close behind
B) Deer never cross the same road twice
C) The road is now clear of animals
D) The deer will turn back toward you

122. At what times are deer and other wildlife most active near roads?

A) Around midday
B) During the late morning
C) Around dawn and dusk
D) In the early afternoon

123. How much of a traffic lane is a motorcycle entitled to?

A) Only the right third of the lane
B) Whatever space other traffic leaves
C) Half a lane, so a car may share it
D) A full lane, the same as a car

124. A motorcycle coming toward an intersection has its turn signal blinking. What should you do before pulling out in front of it?

A) Go - a blinking signal means it will turn
B) Flash your headlights and then pull out
C) Wait until you are sure it is really turning
D) Pull out quickly before it reaches you

125. You are stopped at a steady red light and no sign prohibits turning. What must you do before you turn right?

A) Stop fully, then yield to people and cross traffic
B) Honk to warn others, then turn ahead of them
C) Wait for the light to turn green before turning
D) Slow to a crawl, then turn if the way looks clear

126. In most states, which left turn may you make on a steady red light after a full stop, if no sign forbids it?

A) From a one-way street onto another one-way street
B) From a two-way street onto another two-way street
C) From a two-way street into a store's driveway
D) From any street when no oncoming car is in sight

127. A freeway lane is marked with a white diamond symbol and HOV signs. Who may drive in it?

A) Vehicles carrying the posted number of people
B) Only police and emergency vehicles on a call
C) Any driver who wants to pass slow traffic
D) Only trucks and other large commercial vehicles

128. You are on a freeway on-ramp and the ramp meter signal shows red. What should you do?

A) Merge carefully if the freeway looks clear
B) Use the shoulder to go around the signal
C) Slow down but keep rolling onto the freeway
D) Stop at the line and wait for green

129. A long train has just passed a crossing that has two sets of tracks. Before you cross, you should:

A) Look for a second train on the other track
B) Honk to warn any train and then cross quickly
C) Cross as soon as the gates begin to rise
D) Go at once, because the train has cleared the road

130. Traffic is backed up just past a railroad crossing. When should you start across the tracks?

A) Whenever the crossing lights are not flashing
B) Only when there is room to get fully past the tracks
C) When the car ahead of you has started to cross
D) Right away, since no train is in sight now

131. A small sign below a railroad crossbuck shows the number 2. What does it tell you?

A) Trains come through here about twice a day
B) Stop at least two car lengths from the rails
C) There are two sets of tracks at the crossing
D) The crossing is two miles down the road

132. A flagger in a work zone turns the paddle so the word SLOW faces you. What should you do?

A) Keep your speed - you have the right of way
B) Proceed slowly and watch for workers
C) Speed up to clear the work zone quickly
D) Stop until the flagger waves you on

133. Which of these is a warning sign that you are too drowsy to drive safely?

A) Your passengers start talking more loudly
B) You feel hungry and want to stop for a snack
C) You cannot remember driving the last few miles
D) You notice more traffic signs than usual

134. What is the only real cure for drowsiness while driving?

A) Turning the radio up loud
B) Drinking strong coffee
C) Getting sleep or rest
D) Opening a window for cold air

135. An angry driver is tailgating you, honking and making rude gestures. What is the best response?

A) Speed up to stay ahead of the angry driver
B) Avoid eye contact and let the driver get by
C) Tap your brakes to make the driver back off
D) Gesture back so the driver knows you are upset

136. Why should you use low beams instead of high beams when driving in fog?

A) High beams drain the battery faster in damp air
B) High beams reflect off the fog and cause glare
C) Low beams make your car look larger to others
D) High beams are only allowed on freeways

137. The fog becomes so thick that you can barely see beyond your hood. What is the safest choice?

A) Pull off the road as far as you can and stop
B) Follow the taillights ahead of you closely
C) Stop in your lane and wait for it to clear
D) Switch to high beams so you can see farther

138. What does a sign in the shape of an octagon always mean?

A) Wrong way
B) Yield
C) Do not enter
D) Stop

139. What does a downward-pointing triangle sign mean?

A) Merge
B) Do not enter
C) Yield
D) Stop ahead

140. A diamond-shaped sign is used to indicate:

A) A regulation you must obey
B) A route number for a highway
C) A warning of a hazard ahead
D) A recreation or park area

141. What color background is used for most warning signs?

A) White
B) Red
C) Purple
D) Yellow

142. What does an orange-colored sign indicate?

A) A work zone ahead
B) A railroad crossing ahead
C) A hospital zone ahead
D) A school zone ahead

143. A five-sided (pentagon) sign that points upward indicates:

A) A railroad crossing ahead
B) A school zone or crossing
C) A hospital zone ahead
D) A no-passing zone

144. A round (circular) sign indicates:

A) A stop ahead
B) A one-way street
C) A speed limit change
D) A railroad crossing

145. What does a yellow pennant-shaped sign (a sideways triangle pointing right) on the left side of the road mean?

A) No-passing zone begins
B) A sharp curve
C) Passing lane begins ahead
D) Merge ahead

146. Green guide signs are used to show:

A) Hazards on the road ahead
B) Locations of gas and food
C) Directions and distances
D) Parks and historic sites

147. Blue signs along a highway typically indicate:

A) Parks and recreation areas
B) Gas, food, and lodging services
C) Rules such as speed limits
D) Exits and distances to nearby cities

148. Brown signs are used to mark:

A) Parks and historic sites
B) Detours
C) Toll roads and express lanes
D) Hospitals and gas stations

149. A white rectangular sign generally provides:

A) A rule you must obey
B) A hazard warning ahead
C) Directions to a city
D) A suggested safe speed

150. A red circle with a red slash through a symbol means:

A) Caution for the action shown
B) The action shown is prohibited
C) The action is allowed after stopping
D) The action is required ahead

151. A yellow diamond sign showing an arrow that curves back and forth several times warns of:

A) A steep hill ahead
B) A slippery road
C) A winding road ahead
D) A single sharp curve

152. What does a sign showing a car with curved skid marks indicate?

A) Loose gravel ahead
B) Winding road
C) Sharp curve
D) Slippery when wet

153. A warning sign showing a truck on a downgrade indicates:

A) A steep downhill grade ahead
B) A runaway truck ramp ahead
C) A truck weigh station ahead
D) A truck crossing ahead

154. A yellow sign with two arrows pointing in opposite directions (one up, one down) means:

A) Passing lane ahead
B) Divided highway begins
C) One-way traffic ahead
D) Two-way traffic ahead

155. A yellow diamond sign showing a deer means:

A) A wildlife park entrance
B) A nature trail crossing
C) Deer may cross the road
D) Hunting is allowed nearby

156. A sign that reads 'DO NOT ENTER' on a red and white background means:

A) Enter only after a full stop
B) Only local traffic may enter
C) Enter only if no cars are coming
D) You may not enter the road ahead

157. A red and white 'WRONG WAY' sign tells you:

A) You are going against traffic
B) A detour is ahead - follow it
C) A one-way road begins ahead
D) You must yield to oncoming cars

158. A yellow sign showing a person walking indicates:

A) A sidewalk ends ahead
B) Pedestrians may be crossing
C) A walking trail starts here
D) No pedestrians allowed ahead

159. A yellow sign with a black arrow bending at a 90-degree angle indicates:

A) A lane shift ahead
B) A side road ahead
C) A gentle curve
D) A sharp turn ahead

160. What does a 'MERGE' warning sign (two lines coming together) mean?

A) Your lane ends - you must merge
B) Traffic will merge into your lane
C) The road divides into two routes
D) Two roads cross just ahead

161. A yellow diamond sign showing arrows that curve around in a circle indicates:

A) A roundabout ahead
B) A detour loop ahead
C) A U-turn area ahead
D) A dead-end turnaround

162. A yellow sign showing a bicycle means:

A) A bike rental station ahead
B) Bicyclists may be on the road
C) Bicycles must use the sidewalk
D) Bicycles are not allowed ahead

163. A sign reading 'SPEED LIMIT 55' is what type of sign?

A) Informational
B) Warning
C) Regulatory
D) Guide

164. What is the difference between a black-on-white speed sign and a yellow speed sign below a warning sign?

A) White is for trucks; yellow is for cars
B) Yellow is the legal limit; white is advisory
C) White is the legal limit; yellow is advisory
D) They mean the same - both are legal limits

165. A yellow sign showing a bump or dip in the road warns you to:

A) Keep speed - it only affects trucks
B) Stop and check the road ahead
C) Slow down for a rough spot ahead
D) Move to the shoulder to avoid it

166. A 'STOP' sign at a railroad crossing with no gates means you must:

A) Slow down and look, then roll across
B) Stop fully, then cross when it is safe
C) Stop only if the lights are flashing
D) Stop only if a train is in sight

167. A rectangular white sign reading 'KEEP RIGHT' with an arrow means:

A) Stay in the right lane to pass
B) Pass the divider on either side
C) Go to the right of the divider
D) Right turns only

168. A yellow sign showing a traffic signal symbol means:

A) An emergency vehicle signal
B) A traffic light is ahead
C) The signal ahead is broken
D) A railroad signal ahead

169. A 'LANE ENDS' warning sign (showing one lane merging into another) means:

A) Two-way traffic ahead
B) A new lane opens on your right
C) The highway ends ahead
D) Your lane ends - merge over

170. What does a green light on a traffic signal that is shaped like an arrow mean?

A) A protected move in the arrow's direction
B) The turn is allowed only after stopping
C) Go that way, but yield to oncoming traffic
D) The signal is about to turn red

171. A yellow sign showing a truck tilted on two wheels warns of:

A) A steep downhill grade for trucks
B) A truck inspection station
C) A curve where trucks may tip over
D) A road with soft shoulders ahead

172. A black-and-white rectangular sign reading 'NO TURN ON RED' means:

A) Turn on red only if no cars are coming
B) Turns are never allowed here
C) Only left turns on red are banned here
D) No turning on red, even after stopping

173. A yellow diamond sign showing a 'T' shape indicates:

A) A truck route begins here
B) A four-way crossroad ahead
C) A side road enters from one side
D) Your road ends at a T ahead

174. A flashing yellow arrow on a traffic signal means:

A) Turn freely - oncoming traffic is stopped
B) Wait - the arrow is about to turn red
C) Stop fully, then turn ahead of the oncoming cars
D) Turn after yielding to traffic and pedestrians

175. A sign reading 'YIELD' requires you to:

A) Always come to a full stop first
B) Merge at the same speed as traffic
C) Slow down, give way, and stop if needed
D) Go first - other drivers must yield to you

176. On a freeway, a green sign with a number in a small square (such as 'EXIT 25') refers to:

A) The distance to the next city in miles
B) The exit number, often the mile marker
C) The posted speed limit on the exit ramp
D) The route number of the highway

177. A warning sign showing an arrow splitting into two directions around a vertical line indicates:

A) A fork where you must choose a route
B) A divided highway begins ahead
C) A passing lane opens ahead
D) Two-way traffic begins ahead

Answer Key & Explanations

1. A - Hold or support a phone with hands, arms, or shoulders
Michigan's 2023 hands-free law makes it illegal to hold or support a phone or device with any part of your hands, arms, or shoulders. Hands-free use is allowed.
Source: michigan.gov - PDF p.37-38, 'Cell phone use prohibited for all drivers - including teens' (MCL 257.602b)

2. B - Any bodily alcohol content
Michigan law (MCL 257.625(6)) makes it illegal for a driver under 21 to have "any bodily alcohol content": a BAC of 0.02 or more, or any presence of alcohol from drinking (other than a religious service). The 0.08 limit applies only to drivers 21 and over.
Source: michigan.gov - PDF p.27, list of serious violations (zero tolerance, MCL 257.625(6))

3. B - Only in an emergency
Kelsey's Law prohibits Level 1 (and Level 2) license holders from using a cell phone while driving except in an emergency.
Source: michigan.gov - PDF p.19, GDL Level 1 Learner's License (Kelsey's Law)

4. A - A licensed parent, guardian, or designated adult 21+
Level 1 drivers in Michigan must be accompanied by a licensed parent, guardian, or a designated adult age 21 or older.
Source: michigan.gov - PDF p.18-19, GDL Level 1 Learner's License

5. D - 75 mph
Michigan's Public Act 445 raised the limit to 75 mph on hundreds of miles of qualifying rural freeway. Always obey posted signs.
Source: michigan.gov - MDOT 'Speed limits' page (2016 PA 445); handbook PDF p.40 (70 mph unless otherwise posted)

6. B - 25 mph
The Michigan Vehicle Code sets 25 mph in platted subdivisions and condominium complexes. The 15 mph limit is for mobile home parks and some municipal parks.
Source: michigan.gov - p.26 (PDF p.40), Speed limits

7. C - 70 mph max, 55 mph min
Unless a different limit is posted, Michigan freeways have a 70 mph maximum and a 55 mph minimum. Always follow the posted signs where they differ.
Source: michigan.gov - p.26 (PDF p.40), Speed limits

8. A - 55 mph
Michigan sets 55 mph on streets and highways that are not freeways unless a different limit is posted.
Source: michigan.gov - p.26 (PDF p.40), Speed limits

9. D - They are doubled
Michigan doubles the fines for all moving violations in work zones. Drivers caught speeding there also get more points on their record.
Source: michigan.gov - p.27 (PDF p.41), Construction zones

10. D - Slow down and drive with caution
Michigan lets state and local road agencies add flashing green lights to maintenance vehicles, used only while road work is going on. When you see them, slow down and use caution.
Source: michigan.gov - p.27 (PDF p.41), Maintenance vehicles

11. D - 10 mph
Michigan's move-over rule says to slow down at least 10 mph below the posted limit and move over a lane if traffic allows. If you cannot move over, slow down and leave as much room as you can.
Source: michigan.gov - p.28 (PDF p.42), Emergency vehicles

12. C - At least 500 feet
Stay at least 500 feet behind a moving emergency vehicle using flashing lights and a siren. Do not pass it unless its driver or a police officer tells you to.
Source: michigan.gov - p.28 (PDF p.42), Emergency vehicles

13. A - At least 20 feet
Michigan drivers must stop at least 20 feet from a school bus showing flashing red lights. Stay stopped until the red lights go off or the bus moves on.
Source: michigan.gov - p.29 (PDF p.43), School bus signals

14. D - You may continue with care
You do not need to stop for a school bus on the other side of a highway divided by a barrier such as a concrete or grass median. Drivers on the same side as the bus must stop.
Source: michigan.gov - p.28 (PDF p.42), School buses

15. D - You may not cut through the procession
Funeral processions have the right of way over all vehicles except fire trucks, ambulances, and police. Cutting through one is a civil infraction, but you are not required to pull over.
Source: michigan.gov - p.31 (PDF p.45), Right of way and funerals

16. A - Yes, after a full stop and yielding
The Michigan manual allows a left turn on red from a two-way street onto a one-way street. Come to a full stop, check traffic from the right, and yield to oncoming drivers turning right.
Source: michigan.gov - p.30 (PDF p.44), Right of way at intersections, Figure 4.3

17. A - 200 feet
Michigan requires you to return to your lane before you get within 200 feet of any oncoming vehicle. If you cannot do that, do not start the pass.
Source: michigan.gov - p.32 (PDF p.46), Passing on the left

18. A - 100 feet
Do not pass within 100 feet of an intersection or railroad crossing. The same 100-foot rule applies when your view is blocked near a bridge, viaduct, or tunnel.
Source: michigan.gov - p.32 (PDF p.46), When passing is prohibited

19. C - Go past or turn right, then U-turn at a crossover
Michigan Lefts do not allow a normal left turn at the intersection. You drive straight through or turn right, then make a U-turn at a median crossover.
Source: michigan.gov - p.48 (PDF p.62), Michigan Lefts

20. B - As a single-lane crossover
An unmarked crossover is for one vehicle at a time. Extra width is there for large vehicles that need a wider turn. Only markings such as arrows and ONLY lettering show a two-lane crossover.
Source: michigan.gov - p.48 (PDF p.62), Michigan Lefts

21. D - 500 feet
Michigan's no-parking list includes anywhere within 500 feet of a fire or a crash. Parked cars there can block emergency crews.
Source: michigan.gov - p.38 (PDF p.52), Parking violations

22. C - 50 feet
Michigan law bans parking within 50 feet of the nearest rail at a railroad crossing.
Source: michigan.gov - p.38 (PDF p.52), Parking violations

23. B - 30 feet
Do not park within 30 feet of a stop sign, traffic light, or flashing beacon. Cars parked closer can hide the sign or signal from other drivers.
Source: michigan.gov - p.38 (PDF p.52), Parking violations

24. D - No closer than 15 feet
Michigan bans parking within 15 feet of an intersection that has no crosswalk. If there is a marked crosswalk, stay at least 20 feet from it.
Source: michigan.gov - p.39 (PDF p.53), Parking violations

25. B - 15 to 50 feet from the tracks
When a train is coming, stop no closer than 15 feet and no farther than 50 feet from the tracks. Trains overhang the rails by at least 3 feet, and loads may stick out farther.
Source: michigan.gov - p.35 (PDF p.49), Railroad crossing advance warning sign

26. B - 6 feet
Never start across the tracks unless there is room for your whole vehicle to clear the far side by at least 6 feet. Never stop on the tracks.
Source: michigan.gov - p.36 (PDF p.50), Grade crossing safety tips

27. C - 3 to 4 seconds
Michigan calls for a 3- to 4-second following distance on dry or wet pavement. At higher speeds or in bad conditions, increase it to 6 seconds or more.
Source: michigan.gov - p.64 (PDF p.78), Stopping distances

28. B - 500 feet
It is illegal to use or even flash high beams within 500 feet of an oncoming vehicle. Also dim your lights for pedestrians and cyclists, and when following other vehicles.
Source: michigan.gov - p.64 (PDF p.78), Driving at night

29. C - Twice the normal distance
Roads are slickest in the first half hour of rain, before oil on the pavement washes away. Slow down and allow at least twice your normal following distance.
Source: michigan.gov - p.62 (PDF p.76), Rain and fog

30. A - 3 feet
Michigan law requires at least 3 feet between your vehicle and a bicyclist when you pass. Some cities require 5 feet.
Source: michigan.gov - p.57 (PDF p.71), Bicyclists

31. C - At least 20 feet
Slow to 15-20 mph and stay at least 20 feet behind a horse and rider or a buggy. Do not honk or rev the engine, since loud noise can scare horses.
Source: michigan.gov - p.54 (PDF p.68), Slow-moving vehicles

32. A - Brake firmly and stay in your lane
Do not veer for deer. Brake firmly, hold the wheel with both hands, stay in your lane, and come to a controlled stop. Swerving can cause a worse crash.
Source: michigan.gov - p.65 (PDF p.79), If a vehicle-deer crash is unavoidable

33. B - 10 p.m. and 5 a.m.
Level 2 drivers may not drive from 10 p.m. to 5 a.m. unless a parent, guardian, or designated licensed adult 21+ is with them, or they are driving for work or an authorized activity.
Source: michigan.gov - p.5 (PDF p.19), GDL Level 2 Intermediate License

34. D - $100
A first hand-held phone offense costs $100, and later offenses cost $250. Calls or texts to report crashes, crimes, or other emergencies are allowed.
Source: michigan.gov - p.23 (PDF p.37), Distracted driving

35. D - 4 feet 9 inches
Children must ride in a car seat or booster until they are 8 or 4 feet 9 inches tall, whichever comes first. The manual suggests using the height rule, since a seat belt may not fit a small child.
Source: michigan.gov - p.25 (PDF p.39), Buckle up, it's the law!

36. C - 14 years 9 months years old
In Michigan you can apply for a learner's permit at 14 years 9 months after passing the SOS knowledge test and a vision screening.

37. C - Stop completely before the intersection
A red light means you must stop completely before the stop line, crosswalk, or before entering the intersection. You must remain stopped until the light turns green.
Source: dmv.ca.gov - CA handbook - Traffic Signals, Solid Red Light

38. D - Stop if it is safe to do so
A yellow (amber) light means the signal is about to turn red. You should stop if it is safe to do so. Only proceed if stopping would be unsafe (e.g., you are too close to the intersection).
Source: dmv.ca.gov - CA handbook - Traffic Signals, Solid Yellow Light

39. B - The driver must yield to the pedestrian
Drivers must always yield to pedestrians who are crossing in a marked or unmarked crosswalk. Pedestrian safety is the highest priority.
Source: dmv.ca.gov - CA handbook - Pedestrians / Crosswalks

40. B - Octagon (8-sided)
Stop signs are always octagonal (8-sided) and red. This unique shape allows drivers to recognize them even when covered in snow or seen from behind.
Source: dps.texas.gov - TX handbook - Chapter 5, Table 17: Signs by Shape

41. A - Count the seconds between it and you passing a fixed point
Handbooks teach a time-based gap: pick a fixed object and count the seconds after the vehicle ahead passes it. The minimum differs by state (2, 3 or 4 seconds), with most recommending 3 to 4 seconds in good conditions; add time in rain, at night or behind large vehicles. Check your state handbook for its exact number.
Source: dps.texas.gov - TX handbook - Following distance

42. A - Yellow or orange
Warning signs are yellow (standard warnings) or orange (construction/work zones). They alert drivers to potential hazards ahead such as curves, intersections, or pedestrians.
Source: dps.texas.gov - TX handbook - Chapter 5, sign colors

43. C - Drive no faster than is safe for current conditions
Every state has a basic speed rule: never drive faster than is reasonable and safe for traffic, weather, visibility and road conditions. You can be cited for driving too fast for conditions even while under the posted limit.
Source: dps.texas.gov - TX handbook - Basic speed law

44. C - 0.08%
In most US states, a BAC of 0.08% or higher is legally considered driving under the influence (DUI) for drivers 21 and older. Always check your state's specific laws.
Source: dmv.ca.gov - California Driver Handbook - Alcohol and drug limits

45. D - The car on the right
When two vehicles arrive at a 4-way stop simultaneously, the driver on the LEFT must yield to the driver on the RIGHT. This is the standard right-of-way rule.
Source: dps.texas.gov - TX handbook - Right-of-Way at Intersections

46. B - At night and when visibility is reduced
Every state requires headlights at night and when visibility is reduced. The exact period varies: some states say sunset to sunrise, many say 30 minutes after sunset to 30 minutes before sunrise. Many states also require headlights whenever your wipers are on or you cannot see a set distance (often 500 or 1,000 feet) ahead.
Source: dps.texas.gov - TX handbook - Chapter 9, Headlights

47. B - Yield the right of way
A yield sign is triangular with a red border and white background. It means slow down and give the right of way to traffic or pedestrians. Only stop if necessary.
Source: dps.texas.gov - TX handbook - Chapter 5, Table 17: Signs by Shape

48. C - Stopping or parking is restricted there
Curb colors are not uniform across states. In California and Nevada yellow means a loading zone; in Florida, Tennessee and several other states a yellow curb means no parking. In every case it signals a restriction, so read nearby signs and follow state and local rules.
Source: dmv.nv.gov - NV handbook - Colored Curb Markings

49. B - Pull to the right edge and stop
When an emergency vehicle approaches with lights or siren, you must immediately pull to the right edge of the road and stop. Remain stopped until the vehicle has passed.
Source: dps.texas.gov - TX handbook - Yield Right-of-Way to Emergency Vehicles

50. A - A work zone ahead
Orange diamond-shaped signs indicate construction or work zones. Speed limits are often reduced and fines are doubled in work zones. Slow down and stay alert.
Source: dps.texas.gov - TX handbook - Chapter 5, sign colors

51. B - Use low beams and leave more following distance
In rain, use low-beam headlights (high beams reflect off rain), reduce speed, and increase following distance to at least 4-6 seconds. High beams can reduce visibility in rain.
Source: assets.dps.mn.gov - MN handbook - Weather: rain

52. A - Just before the stop line
Stop before the stop line - not on it or beyond it. If there is no stop line, stop before the crosswalk. If no crosswalk, stop before the intersection.
Source: assets.dps.mn.gov - MN handbook - Stop signs / stop lines

53. D - Glance over your shoulder toward the new lane
Mirrors have blind spots. Always glance over your shoulder in the direction you plan to move before changing lanes, in addition to checking your mirrors.
Source: dps.texas.gov - TX handbook - Changing lanes

54. D - At least 100 feet
Most states require a signal at least 100 feet before turning (CA, TX, NY, FL, MN and many others). Some require more on faster roads (200-300 feet) and Tennessee sets 50 feet, so check your own handbook. Always signal, even if you see no one around.
Source: tn.gov - TN handbook - Turning / signaling

55. D - Away from the curb (left)
When parking uphill with a curb, turn your wheels away from the curb (left). If the car rolls backward, it hits the curb and stops. Downhill: turn toward the curb.
Source: dmv.ca.gov - CA handbook - Parking on a hill

56. A - Guide information (directions)
Green signs provide guidance information such as highway route numbers, exit numbers, destinations, distances, and directions. They help drivers navigate.
Source: assets.dps.mn.gov - MN handbook - Chapter 5, sign colors

57. C - Yield to oncoming traffic and pedestrians
A green ball (not arrow) allows a left turn only after yielding to oncoming traffic and pedestrians. A green arrow means you have a protected turn and oncoming traffic is stopped.
Source: dmv.ca.gov - CA handbook - Flashing Yellow Arrow / left turns

58. A - Stop, then go when it is safe
A flashing red light must be treated exactly like a stop sign. Come to a complete stop, check for traffic and pedestrians, then proceed when safe.
Source: flhsmv.gov - FL handbook - Flashing Red Light

59. A - Shift to neutral, brake, and steer to safety
Shift to neutral (to disconnect engine power), then apply brakes steadily to slow the vehicle. Steer to a safe location. Only turn off the ignition if other methods fail - as this can lock the steering column in older cars.
Source: ksrevenue.gov - KS handbook - Accelerator Failure

60. A - No passing from either direction
Double solid yellow lines separate traffic moving in opposite directions. Crossing them to pass is prohibited from both directions.
Source: assets.dps.mn.gov - MN handbook - Pavement markings

61. D - Impairing reaction time, judgment, and vision
Alcohol impairs all the skills needed to drive safely: reaction time slows, judgment and decision-making deteriorate, coordination suffers, and vision (especially peripheral) is reduced.
Source: flhsmv.gov - FL handbook - Alcohol

62. A - A round yellow sign with an X and RR
The round yellow sign with an X and "RR" is the railroad advance warning sign, usually the first sign you see before a highway-rail crossing. At the tracks you will see the white X-shaped crossbuck, which means yield to trains.
Source: dps.texas.gov - TX handbook - Chapter 5, Table 17: Signs by Shape

63. D - Ease off the gas and steer where you want to go
In a skid, take your foot off the gas (do not brake hard) and gently steer in the direction you want the front of the car to go. Smooth inputs are key - sudden movements worsen the skid.
Source: dmv.ny.gov - NY handbook - Skids

64. C - 15 feet
Most states (including California, Texas, New York, Florida and Pennsylvania) prohibit parking within 15 feet of a fire hydrant. Some use a shorter distance (for example 10 feet in Connecticut, Minnesota, New Jersey and Oregon), so check your state handbook.
Source: portal.ct.gov - CT handbook - Parking restrictions

65. C - Lane changes are permitted when safe
Broken (dashed) white lines separate lanes of traffic moving in the same direction. You may change lanes when it is safe to do so.
Source: dmv.ca.gov - CA handbook - Broken White Lines

66. A - Whenever rain, snow or spray blurs your view
Use your wipers whenever precipitation or road spray reduces your view. Many states also require your headlights to be on whenever your wipers are in use because of weather.
Source: dmv.virginia.gov - VA handbook - Bad weather

67. D - Traffic already on the highway
Traffic already on the highway has the right of way. The merging driver must adjust speed to safely enter the flow of traffic - do not force other drivers to slow down.
Source: flhsmv.gov - FL handbook - Entering a limited-access highway

68. B - Motorist services like gas and food
Blue signs provide information about motorist services: gas stations, food, lodging, hospitals, and rest areas. They help drivers find services along the route.
Source: dps.texas.gov - TX handbook - Chapter 5, sign colors

69. C - Ease off the gas and keep the wheel straight
During hydroplaning, ease off the gas gradually to slow down. Hold the steering wheel firmly and straight. Do not brake suddenly or steer sharply - this can cause a spin.
Source: assets.dps.mn.gov - MN handbook - Hydroplaning

70. C - 20 feet
Most states prohibit parking within 20 feet of a crosswalk at an intersection (and, separately, within 30 feet of a stop sign or traffic signal in many states). A few use other distances, such as 25 feet in New Jersey, so check your handbook.
Source: dps.texas.gov - TX handbook - Do Not Park

71. C - Move over a lane, or slow down if you cannot
All 50 states have Move Over laws requiring drivers to move over at least one lane away from stopped emergency, police, and maintenance vehicles. If changing lanes is unsafe, slow to well below the speed limit.
Source: flhsmv.gov - FL handbook - Move Over Law

72. C - Stop in both directions until the lights stop
On an undivided road, traffic in both directions must stop for a school bus showing flashing red lights and a stop arm, and stay stopped until the lights stop. Rules for the opposite side of a divided highway differ by state (New York requires you to stop even then), so check your handbook.
Source: dmv.ny.gov - NY handbook - School buses

73. D - Yield to traffic already in the roundabout
When entering a roundabout, yield to all vehicles already circulating inside. Enter only when there is a safe gap in traffic. Drive counterclockwise around the circle.
Source: dmv.ca.gov - CA handbook - Roundabouts

74. C - To keep wheels from locking so you can steer
ABS prevents wheels from locking during hard braking, allowing you to maintain steering control. When ABS activates, you may feel pulsing in the brake pedal - this is normal. Press firmly and steer.
Source: assets.dps.mn.gov - MN handbook - Anti-lock brakes

75. D - School zones
Pentagon-shaped signs (pointing up or down) are used for school zones and school crossings. They are yellow-green in color and alert drivers that children may be present.
Source: dps.texas.gov - TX handbook - Chapter 5, Table 17: Signs by Shape

76. D - To express frustration at another driver
Horns are safety devices used to warn others of danger. Using your horn out of frustration or anger is not a legal use and can be considered aggressive driving in many states.
Source: assets.dps.mn.gov - MN handbook - Horn

77. C - You agree to chemical tests if arrested for DUI
Implied consent laws mean that by driving on public roads, you have already consented to chemical tests (breath, blood, urine) if you are lawfully arrested for suspected DUI. Refusing has serious consequences including license suspension.
Source: pa.gov - PA handbook - Pennsylvania's Implied Consent Law

78. B - No stopping, standing, or parking
Where curb colors are used, red means no stopping, standing or parking; it is often used for fire lanes and near hydrants. White usually means passenger loading, green limited-time parking and blue disabled parking. Curb rules vary by state and city, so obey posted signs.
Source: mvdmt.gov - MT handbook - Colored curb markings

79. C - Monthly and before long trips, with cold tires
Check tire pressure monthly and before long trips, using a gauge when tires are cold (not recently driven). Proper inflation improves fuel economy, tire life, and braking performance.
Source: sd.gov - SD handbook - Vehicle maintenance

80. B - Take breaks every 2 hours or 100 miles
The only real cure for drowsiness while driving is sleep. Take breaks at least every 2 hours or 100 miles. Coffee provides temporary relief but is not a substitute for rest.
Source: dps.texas.gov - TX handbook - Drowsy driving

81. B - 88 feet
At 60 mph, a vehicle travels about 88 feet per second (60 x 5,280 / 3,600 = 88). Understanding stopping distances is critical - at 60 mph you need approximately 300 feet to stop.
Source: nj.gov - NJ handbook - Stopping distance

82. B - In front, behind, and along both sides
Large trucks have significant blind spots (no-zones): directly in front (20 feet), directly behind (30 feet), to the right (2 lanes wide), and to the left (1 lane). If you cannot see the driver's face in their mirror, they cannot see you.
Source: dmv.ca.gov - CA handbook - Blind Spots (the No Zone)

83. A - Use both lanes to the merge point, then take turns
Where zipper-merge signs are posted, stay in your lane until the merge point, then take turns with the other lane like the teeth of a zipper. Merging early leaves one lane empty and makes the queue longer; the Minnesota Department of Transportation reports that the zipper merge can cut the length of a backup by as much as 40 percent.
Source: dmv.colorado.gov - CO handbook - Zipper Merge

84. A - No passing zone begins
The no-passing zone sign is the only pennant-shaped sign: a yellow, sideways triangle pointing to the right. It is posted on the left side of the road at the start of a no-passing zone, where a solid yellow line also appears on your side of the centerline.
Source: ksrevenue.gov - Kansas Driving Handbook (Rev. Feb 2022), Passing - No Passing Zone sign; MUTCD 11th ed. Table 2A-1 (W14-3)

85. D - Banned in most states and a major crash risk
Handheld cell phone use while driving is banned in most US states. Using a phone quadruples crash risk. Even hands-free calls significantly impair attention. Use do-not-disturb mode when driving.
Source: dmv.ca.gov - CA handbook - Distracted driving

86. D - Only time
Only time removes alcohol from the body. Coffee, food and a cold shower do not lower blood alcohol, so the person is still impaired.
Source: dps.texas.gov - TX handbook - Myths about Drinking Alcohol

87. B - Vehicles on the terminating road
At a T-intersection (where one road ends and meets another), vehicles on the through road (the top of the T) have the right of way over vehicles on the terminating road (the bottom of the T).
Source: dmv.ca.gov - CA handbook - Right-of-way rules

88. A - Pull over immediately and turn on hazard lights
If your headlights fail at night, immediately activate your hazard lights, signal, and safely pull completely off the road. Do not continue driving without headlights as it is extremely dangerous and illegal.
Source: portal.ct.gov - CT handbook - Headlight Failure

89. C - The point where you can no longer stop safely
The 'point of no return' is the position from which stopping safely (without running the light or causing a rear-end collision) becomes impossible. Before this point, slow and stop. After it, proceed through safely.
Source: pa.gov - PA handbook - Traffic signals - steady yellow

90. C - When your car is disabled on or near the road
Hazard lights warn others that your vehicle is stopped, disabled or a hazard. Rules for using them while moving (for example in heavy rain) differ between states, so follow your state handbook.
Source: dmv.ca.gov - CA handbook - Using Your Emergency Flashers

91. A - Parallel to the curb and as close as practical
Park parallel to and close to the curb. States set different maximum distances - for example 18 inches in California and Texas, 12 inches in Florida, Michigan and Washington, and 6 inches in New Jersey - so learn your state's limit.
Source: nj.gov - NJ handbook - Parking

92. A - Ease off the gas and steer back gently
If your wheels drift onto the shoulder, do not brake hard or jerk the wheel. Ease off the accelerator, keep a firm grip, and steer back onto the pavement gently once your speed has decreased - this prevents loss of control.
Source: ksrevenue.gov - KS handbook - Vehicle leaves the pavement

93. D - Hold the wheel firmly and ease off the gas
During a blowout, hold the steering wheel firmly to keep the vehicle straight, ease your foot off the accelerator, and let the car slow gradually. Hard braking can cause a spin. Pull off the road only after you have control.
Source: ksrevenue.gov - KS handbook - Tire blowout

94. D - Move over or add space ahead and let them pass
When tailgated, do not brake-check. Move to another lane if possible or increase the gap to the vehicle ahead so you have more room to stop gradually - this gives both you and the tailgater more reaction time.
Source: dmv.ca.gov - CA handbook - Space: tailgaters

95. C - On open roads with no vehicles close by
Use high beams on open roads when there is no oncoming traffic and no vehicle close ahead. Dim them within 500 feet of oncoming traffic and 200-300 feet when following. High beams reflect off fog, rain, and snow, reducing visibility.
Source: wisconsindot.gov - WI handbook - High beams

96. C - Keep space around you and stay out of blind spots
Maintain a space cushion around your vehicle and avoid lingering in others' blind spots. This keeps you visible, gives you escape routes, and improves your view of developing hazards.
Source: assets.dps.mn.gov - MN handbook - Blind spots

97. C - Many cause drowsiness - check the label first
Many legal medications - including antihistamines, sleep aids, and pain relievers - can cause drowsiness, dizziness, or slowed reactions. Always read warning labels and avoid driving if a medication may impair you.
Source: dps.texas.gov - TX handbook - Drugs

98. A - To turn or cross to parking, yielding to cyclists
Bike lanes are for bicyclists. You may enter or cross one only when needed to turn, enter or leave a driveway or alley, or park where allowed, and you must yield to bicyclists first. States differ on details: California lets you merge into the bike lane before a turn, while Connecticut and Hawaii only let you cross it.
Source: portal.ct.gov - CT handbook - Bicyclists

99. D - Holding your foot over the brake, ready to stop
Covering the brake means moving your foot from the accelerator to a position over, or lightly on, the brake pedal when you see a possible hazard, so you can brake with less reaction time.
Source: tn.gov - TN handbook - Covering the brake

100. B - Stop, shut off the engine, and get everyone away
If your engine catches fire, pull off the road, shut off the engine, and get all occupants out and well away from the vehicle. Do NOT open the hood - adding oxygen can intensify the fire. Call 911.
Source: nj.gov - NJ handbook - Car Fires

101. A - Perception, reaction, and braking distance
Total stopping distance = perception distance (seeing the hazard) + reaction distance (moving your foot to the brake) + braking distance (the vehicle physically stopping). All three increase with speed, which is why higher speeds are far more dangerous.
Source: flhsmv.gov - FL handbook - Total Stopping Distance

102. C - Slow down and leave more following distance
At night your visibility is reduced, so reduce speed and increase following distance. Do not overdrive your headlights - be able to stop within the distance you can see. Avoid staring at oncoming lights; glance to the right edge of your lane.
Source: dps.texas.gov - TX handbook - Night driving

103. B - Stop, then go when safe - cross traffic won't stop
A flashing red light works like a stop sign: stop completely, then go when safe. The cross traffic with a flashing yellow only needs to slow and proceed with caution - they do not stop, so you must yield to them.
Source: dmv.ca.gov - CA handbook - Flashing lights

104. C - Lane changes are discouraged
A solid white line discourages or prohibits lane changes. A broken (dashed) white line means lane changes are permitted when safe. White lines separate traffic moving in the same direction.
Source: flhsmv.gov - FL handbook - Pavement markings

105. D - Reduce traction and raise the risk of skidding
Bald or worn tires have little tread to grip the road or channel away water. This dramatically increases stopping distance and the risk of hydroplaning and skidding, especially in wet conditions.
Source: dps.texas.gov - TX handbook - Skids / tires

106. C - Raise crash risk and can lead to reckless charges
Aggressive driving dramatically increases the risk of a crash and can lead to reckless driving citations, points, and higher insurance. The time saved is minimal compared to the danger created.
Source: assets.dps.mn.gov - MN handbook - Aggressive driving

107. A - Counterclockwise; circulating traffic has priority
In the United States, traffic in a roundabout flows counterclockwise, and vehicles already circulating in the roundabout have the right of way. Entering drivers must yield and merge into a safe gap.
Source: flhsmv.gov - FL handbook - Roundabouts

108. B - Check mirrors and look for traffic and cyclists
Before opening your door into traffic, check your mirrors and look over your shoulder for approaching vehicles and cyclists. 'Dooring' a passing cyclist is dangerous and illegal in many states.
Source: dps.texas.gov - TX handbook - Parking

109. D - Driving fast on a wet road, mainly with worn tires
Hydroplaning happens when a layer of water builds between your tires and the road, usually at higher speeds on wet pavement. Worn tires and standing water increase the risk. Slow down in the rain to keep tire contact with the road.
Source: dmv.ny.gov - NY handbook - Hydroplaning

110. B - Change lanes away if safe, or else slow down
Move Over laws require drivers to change lanes away from stopped emergency and service vehicles when safe. If you cannot move over, slow down well below the speed limit and pass with extreme caution.
Source: dmv.ca.gov - CA handbook - Emergency vehicles

111. A - Not drive at all after drinking any alcohol
There is no safe way to drive after drinking. The only sure prevention is to not drive at all after consuming alcohol - arrange a designated sober driver, taxi, or rideshare instead.
Source: flhsmv.gov - FL handbook - Alcohol

112. A - Drivers from either direction about to turn left
This is a two-way left-turn lane. Drivers from both directions share it, entering it only just before they turn left. It is not a travel or passing lane.
Source: publicsafety.ohio.gov - Section 4 - Rules of the Road, Two-way Left Turn Only Lane

113. A - No - the lane is only for vehicles turning left
A shared center lane is reserved for left turns by traffic from both directions. Using it for through travel or to pass other vehicles is not allowed.
Source: dol.wa.gov - (PDF p.116), Signs - Shared center lane left turn only

114. C - Left arm out and bent downward
An arm extended out and bent down signals slowing or stopping. Arm bent up is a right turn and arm straight out is a left turn.
Source: public.powerdms.com - p.93 (PDF p.98), Hand signals

115. D - The bus is about to stop - get ready to stop
Flashing amber lights are a warning that the bus is preparing to stop to load or unload children. Slow down and prepare to stop; the red lights come on when the bus stops.
Source: oregon.gov - p.55 (PDF p.63), School Buses

116. D - Stop - traffic behind the bus must stop
A divided highway may excuse traffic on the opposite side, but never drivers going the same way as the bus. Stay stopped until the red lights stop flashing and the stop arm is pulled in.
Source: dol.wa.gov - (PDF p.95), Sharing with school buses - When you are behind the bus

117. A - After the car has slowed and is under control
Braking hard during a blowout can make you lose control. Hold the wheel firmly, ease off the gas, let the car slow down, and brake gently only once it is under control.
Source: in.gov - p.60 (PDF p.65), Vehicle Equipment Failures - Tire Blowout

118. B - Pumping the brake pedal quickly
Pumping the pedal can restore enough pressure for the brakes to work. If it does not, shift to a lower gear and apply the parking brake slowly.
Source: oregon.gov - p.85 (PDF p.93), Brakes Fail

119. C - Apply it slowly and gradually
Setting the parking brake too hard or too fast can lock the wheels and throw the car into a skid. Apply it slowly while you steer to a safe place.
Source: assets.dps.mn.gov - p.84 (PDF p.87), Brake failure

120. B - Steering and braking will take more effort
With the engine off you lose power steering and power brake assist, so the wheel and pedal feel much heavier. They still work - push harder and steer to a safe stop.
Source: alea.gov - p.75 (PDF p.77), Stuck accelerator pedal

121. A - More deer may follow close behind
Deer usually travel in groups, so one deer crossing often means others are close behind. Slow down and be ready to stop.
Source: assets.dps.mn.gov - p.84 (PDF p.87), Watch out for deer

122. C - Around dawn and dusk
Wildlife moves most at dawn and dusk, when light is also poor for your eyes. Scan both sides of the road and watch for eyes reflecting your headlights.
Source: public.powerdms.com - p.104 (PDF p.109), Animals

123. D - A full lane, the same as a car
A motorcycle has the right to use a full lane. Never drive alongside a motorcycle in the same lane, even if the rider is far to one side.
Source: alea.gov - p.26 (PDF p.28), Sharing the road with motorcycles

124. C - Wait until you are sure it is really turning
Many motorcycle turn signals do not cancel by themselves, so a rider may have forgotten one. Wait until the motorcycle actually starts to turn.
Source: publicsafety.ohio.gov - Section 9 - Sharing the Road, Motorcyclists

125. A - Stop fully, then yield to people and cross traffic
A right turn on red is allowed only after a complete stop and only after yielding to pedestrians and all crossing traffic. A NO TURN ON RED sign takes this option away.
Source: publicsafety.ohio.gov - Section 5 - Learning to Drive, A driver must stop

126. A - From a one-way street onto another one-way street
Most states allow a left turn on red from a one-way street onto another one-way street that carries traffic to the left. You must stop fully and yield to pedestrians and traffic first.
Source: assets.dps.mn.gov - p.66 (PDF p.69), Left turn on red

127. A - Vehicles carrying the posted number of people
The diamond marks a high-occupancy vehicle (carpool) lane. The signs show how many people must be in the vehicle and when the rule applies.
Source: dol.wa.gov - (PDF p.134), Lanes - HOV / carpool

128. D - Stop at the line and wait for green
A ramp meter works like a traffic light. Stop at the stop line on red and go when it turns green, then speed up to merge.
Source: dol.wa.gov - (PDF p.113), Freeway ramp meters

129. A - Look for a second train on the other track
One train can hide another coming from either direction on a second track. Wait until you can see clearly both ways and all signals have stopped.
Source: oregon.gov - p.64 (PDF p.72), Railroad Crossings

130. B - Only when there is room to get fully past the tracks
Never stop on railroad tracks. Wait behind the crossing until there is enough space on the other side for your whole vehicle.
Source: assets.dps.mn.gov - p.53 (PDF p.56), Railroad crossing safety

131. C - There are two sets of tracks at the crossing
When a crossing has more than one track, a sign under the crossbuck shows how many tracks there are. Be ready for a train on any of them.
Source: alea.gov - p.39 (PDF p.41), Railroad Crossbuck

132. B - Proceed slowly and watch for workers
Flaggers use STOP/SLOW paddles to control traffic. SLOW means you may move ahead at a reduced speed with care; STOP means stop.
Source: in.gov - p.47 (PDF p.52), Flagger Signals

133. C - You cannot remember driving the last few miles
Not remembering the last few miles, heavy eyelids, missing exits or signs, and drifting out of your lane all mean you should pull over and rest.
Source: dol.wa.gov - (PDF p.75), Fatigue

134. C - Getting sleep or rest
Coffee, cold air and loud music may help for a short time, but they do not last. Only sleep or rest fixes fatigue, so stop and rest when you are tired.
Source: assets.dps.mn.gov - p.91 (PDF p.94), Drugs and fatigue

135. B - Avoid eye contact and let the driver get by
Do not challenge an aggressive driver. Stay calm, avoid eye contact, and move out of the way so the situation does not get worse.
Source: assets.dps.mn.gov - p.79 (PDF p.82), Aggressive driving

136. B - High beams reflect off the fog and cause glare
Fog reflects the bright light of high beams back at you, making it harder to see. Low beams light the road with less glare. Also slow down.
Source: oregon.gov - p.77 (PDF p.85), Fog, Dust and Smoke

137. A - Pull off the road as far as you can and stop
When visibility drops to near zero, get completely off the road and wait for the fog to lift. Stopping in a travel lane invites a rear-end crash.
Source: in.gov - p.44 (PDF p.49), Fog

138. D - Stop
An octagon (8-sided shape) is used exclusively for STOP signs. The unique shape lets drivers identify it even when snow-covered or viewed from behind.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2A.05, Table 2A-1 Use of Sign Shapes; 2B.04

139. C - Yield
An inverted (downward-pointing) triangle is always a YIELD sign. Slow down, be ready to stop, and give the right of way to traffic and pedestrians.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2A.05, Table 2A-1 Use of Sign Shapes

140. C - A warning of a hazard ahead
Diamond-shaped signs are warning signs. They alert you to hazards or changes in road conditions ahead, such as curves, intersections, or pedestrian crossings.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.02

141. D - Yellow
Most warning signs have a yellow background with black symbols or letters. Yellow signals caution - slow down and watch for the hazard described.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.02

142. A - A work zone ahead
Orange signs indicate construction and maintenance work zones. Reduce speed, watch for workers and equipment, and be prepared for changed traffic patterns. Fines are often doubled.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 1D.05 Color Code

143. B - A school zone or crossing
An upward-pointing pentagon sign marks a school zone or school crossing. It is typically yellow-green and warns that children may be present.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2A.05, Table 2A-1 Use of Sign Shapes

144. D - A railroad crossing
A round, yellow sign with a black X and two R's warns of a railroad crossing ahead. The circular shape is used exclusively for railroad advance-warning signs.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) Section 2A.05 and Table 2A-1 (W10-1)

145. A - No-passing zone begins
A yellow pennant-shaped sign on the left side of the road marks the beginning of a no-passing zone. It supplements the solid yellow line on the pavement.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.53

146. C - Directions and distances
Green signs provide guidance: route numbers, directions, distances, and destination names. They help you navigate to where you are going.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 1D.05 Color Code

147. B - Gas, food, and lodging services
Blue signs indicate motorist services - gas stations, food, lodging, hospitals, and rest areas - available at or near an exit.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 1D.05 Color Code

148. A - Parks and historic sites
Brown signs point to recreational and cultural sites - parks, campgrounds, historical landmarks, and scenic areas.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 1D.05 Color Code

149. A - A rule you must obey
White rectangular signs are regulatory signs. They tell you the law - such as speed limits, lane usage, and turning rules - and must be obeyed.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 1D.05 Color Code

150. B - The action shown is prohibited
A red circle with a diagonal slash means the action depicted inside is prohibited - for example, no left turn, no U-turn, or no trucks.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 1D.05 Color Code

151. C - A winding road ahead
The Winding Road sign (a single arrow that bends back and forth) warns of three or more curves in a row ahead. An S-shaped arrow with only two bends is the Reverse Curve sign. Reduce speed and stay alert through the curves.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.07 Paragraph 05

152. D - Slippery when wet
A yellow warning sign with a car and curved skid lines means the road is slippery when wet. Slow down and increase following distance in rain or snow.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.30

153. A - A steep downhill grade ahead
A sign showing a truck on a slope warns of a steep downhill grade. Trucks should use a lower gear; all drivers should check brakes and control speed.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.14

154. D - Two-way traffic ahead
This sign warns that you are leaving a divided roadway and entering a two-way road. Oncoming traffic will now be present - keep right and do not pass unless permitted.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.51

155. C - Deer may cross the road
A deer symbol warns that animals frequently cross this stretch of road. Be especially alert at dawn and dusk, scan the roadsides, and slow down.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.55

156. D - You may not enter the road ahead
A 'Do Not Enter' sign means you must not enter the road or ramp ahead - usually because it is one-way or an exit ramp. Entering would put you in oncoming traffic.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2B.46

157. A - You are going against traffic
A 'Wrong Way' sign means you are heading the wrong direction on a one-way road or ramp. Stop, check for traffic, and safely turn around immediately.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2B.47

158. B - Pedestrians may be crossing
A pedestrian symbol on a yellow or yellow-green sign warns that pedestrians may be crossing. Slow down and yield to anyone in or entering the crosswalk.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 1D.05 Color Code

159. D - A sharp turn ahead
A sharp-angle arrow warns of a sharp turn (not a gentle curve) ahead. Slow down significantly before the turn - the recommended speed is often posted below.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.07 Paragraph 02

160. B - Traffic will merge into your lane
A Merge sign warns that traffic from another roadway (such as an entrance ramp) will be joining your lane ahead. Watch for merging vehicles and adjust your speed and position so they can blend in smoothly. A lane that is ending has its own 'Lane Ends' sign.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.45 Paragraph 01

161. A - A roundabout ahead
The Circular Intersection sign (a yellow diamond showing arrows curving counterclockwise in a circle) warns of a roundabout ahead. Slow down, yield to traffic already in the circle, and enter when there is a safe gap. Round signs are used only for railroad crossing advance warnings.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) Section 2A.05, Table 2A-1 and Section 2C.02

162. B - Bicyclists may be on the road
A bicycle symbol warns that bicyclists may be on or crossing the roadway. Share the road, slow down, and give cyclists adequate space when passing.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.54

163. C - Regulatory
Speed limit signs are regulatory - they state the maximum legal speed under ideal conditions, which you are legally required to obey.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2B.21 Paragraph 13

164. C - White is the legal limit; yellow is advisory
A black-on-white speed sign is the legal speed limit. A yellow speed plate below a warning sign (e.g., on a curve) is an advisory speed - the safe recommended speed for that hazard.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.59

165. C - Slow down for a rough spot ahead
Bump and dip signs warn of an abrupt change in the road surface. Slow down to maintain control and protect your vehicle's suspension.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.26

166. B - Stop fully, then cross when it is safe
A stop sign at a railroad crossing requires a complete stop. Look and listen carefully in both directions, and cross only when you are sure no train is coming.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 8B.04 Paragraph 06

167. C - Go to the right of the divider
A 'Keep Right' sign directs you to pass to the right of a traffic island, median, or obstruction. It keeps traffic flowing correctly around the divider.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2B.39

168. B - A traffic light is ahead
A signal-ahead warning sign tells you a traffic light is coming up, often where it may be hard to see in time. Be prepared to slow and stop.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.35

169. D - Your lane ends - merge over
A lane-ends sign warns that the number of lanes is being reduced ahead. Merge safely into the continuing lane before your lane disappears.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.47

170. A - A protected move in the arrow's direction
A green arrow gives a protected movement: you may go in the direction of the arrow while conflicting traffic is stopped by a red signal. You must still yield to pedestrians lawfully in the crosswalk and to vehicles still lawfully in the intersection.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 4A.03 Paragraph 01 A.2

171. C - A curve where trucks may tip over
This sign warns of a curve sharp enough that trucks and top-heavy vehicles risk rolling over. All drivers should reduce speed before entering.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.11

172. D - No turning on red, even after stopping
A 'No Turn on Red' sign prohibits turning while the signal is red, even after a complete stop. You must wait for a green light to turn.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2B.60

173. D - Your road ends at a T ahead
A 'T' symbol warns that the road you are on ends ahead at a T-intersection. Be prepared to stop or yield and turn left or right.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2C.41

174. D - Turn after yielding to traffic and pedestrians
A flashing yellow arrow means you may turn in that direction after yielding to oncoming traffic and pedestrians. It is an unprotected turn - proceed only when safe.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 4A.04 Paragraph 01 B.2

175. C - Slow down, give way, and stop if needed
A yield sign requires you to slow down and give the right of way to traffic and pedestrians. You must stop if necessary, but a full stop is not always required when the way is clear.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2B.05

176. B - The exit number, often the mile marker
Exit number signs identify highway exits. In most states the exit number corresponds to the nearest mile marker, helping you judge distance to your exit.
Source: mutcd.fhwa.dot.gov - MUTCD 11th ed. (Dec 2023) 2E.22

177. B - A divided highway begins ahead
This sign warns that a divided highway begins ahead - a median or barrier will separate the opposing lanes. Keep right of the divider.
